

Chambray Labradors 2016 Stud Dog Contract

Stud Dog Name _____

AKC # _____

Female Name _____

AKC # _____

Owned by _____

Address _____

Phone _____ Email _____

Half the fee for the stud service is payable at the time of breeding or if being shipped, prior to shipping of semen. The specific Stud Service fee covers of the following:

- 2 AI breedings at Chambrays Acres or 2 collections to be shipped at owner's expense.
- Female owner supplies semen extenders and shipping boxed for the 2 shipments.
- Female owner is responsible for the AI at their end and for expense of the AI
- At least 2 live puppies constitutes a litter for the stud service fee. We must be notified within 48 hours of litter's birth or this contract will be null and void.

Balance of stud service must be paid no later than 1 week after litter birth. If longer than 1 week an extra \$75 will be added to the total stud service fee.

*Female owner must notify Chambray via email that the litter has been born within 48 hours of birth for guarantees to take effect. If 1 or no puppies are born, then a ONE TIME repeat procedure within 1 year will be supplied. If we are not notified within the 48 hours of litter's birth, then no repeat breeding will be made available.

Female owner supplies semen extenders and shipping boxes and is responsible for shipping charges of repeat breeding.

The repeat procedure of collecting and shipping concludes the contract for the specified stud service regardless of outcome of this repeat breeding. The remaining 50% of stud service must be paid before the shipping of the repeat shipment is sent.

Submission of stud fee to Chambray Labradors indicates that the above contract has been read and understood and accepted as a bonafide working contract between the submitting party and Chambray Labradors/Vincent Herzon.

Female Owner Signs _____ Date _____

We require 24 hours' notice to collect and ship semen package out.
